In re Application of	:	
Pandelisev	:	DECISION
Application No. 09/880,943	:	
Filing Date: 15 June, 2001	:	
Attorney Docket No.: PHOENIX SCIENTIFIC	:	

This is a decision on the petition filed on 22 December, 2005, as a request for withdrawal of the holding of abandonment under 37 C.F.R. §1.181.

For the reasons set forth below, the petition as considered under 37 C.F.R. §1.181 is **GRANTED**.

BACKGROUND

The record reflects that:

- Petitioner failed to reply timely and properly to the non-final Office action mailed on 4 May, 2005, with reply due absent an extension of time on or before 4 August, 2005;
- the application went abandoned by operation of law after midnight 4 August, 2005;
- the Office mailed the Notice of Abandonment on 19 December, 2005;
- on 22 December, 2005, Petitioner filed the instant petition and alleged the timely filing of a reply in the form of an amendment filed over a 2 September, 2005, certificate of

mailing, and provided a copy thereof, with a portion of a date stamped ("SEPT 06 2005") receipt card (see: MPEP §503¹) evidencing not only receipt by the Office but damage in transmittal with the U.S. Postal Service (USPS) and correspondence from the USPS evidencing same.

STATUTES, REGULATIONS AND ANALYSIS

Congress has authorized the Commissioner to "revive an application if the delay is shown to the satisfaction of the Commissioner to have been "unavoidable." 35 U.S.C. §133 (1994).²

The regulations at 37 C.F.R. §1.137(a) and (b) set forth the requirements for a petitioner to revive

¹ MPEP §503 provides in pertinent part:
§503 Application Number and Filing Receipt

A return postcard should be attached to *each* patent application for which a receipt is desired. It is important that the return postcard itemize all of the components of the application. If the postcard does not itemize each of the components of the application, it will not serve as evidence that any component which was not itemized was received by the United States Patent and Trademark Office (USPTO). It should be recognized that the identification of an application by application number does not necessarily signify that the USPTO has accepted the application as complete (37 C.F.R. §1.53(a)).

RETURN POSTCARD

If a receipt of any item (e.g., paper or fee) filed in the USPTO is desired, it may be obtained by enclosing with the paper a self-addressed postcard specifically identifying the item. The USPTO will stamp the receipt date on the postcard and place it in the outgoing mail. A postcard receipt which itemizes and properly identifies the items which are being filed serves as *prima facie* evidence of receipt in the USPTO of all the items listed thereon on the date stamped thereon by the USPTO.

The identifying data on the postcard should be so complete as to clearly identify the item for which receipt is requested. For example, the postcard should identify the applicant's name, application number (if known), confirmation number (if known), filing date, interference number, title of the invention, etc. The postcard should also identify the type of paper being filed, e.g., new application, affidavit, amendment, notice of appeal, appeal brief, drawings, fees, motions, supplemental oath or declaration, petition, etc., and the number of pages being submitted. If a new application is being filed, all parts of the application being submitted should be separately listed on the postcard, e.g., the number of pages of specification (including written description, claims and abstract), number of claims, number of sheets of drawings, number of pages of oath/declaration, number of pages of cover sheet (provisional application).

The postcard receipt will not serve as *prima facie* evidence of receipt of any item which is not adequately itemized on the postcard. For example, merely listing on the postcard "a complete application" or "patent application" will not serve as a proper receipt for each of the required components of an application (e.g., specification (including claims), drawings (if necessary), oath or declaration and the application filing fee) or missing portions (e.g., pages, sheets of drawings) of an application if one of the components or portion of a component is found to be missing by the USPTO. Each separate component should be specifically and properly itemized on the postcard. Furthermore, merely incorporating by reference in the postcard receipt, the items listed in a transmittal letter will not serve as *prima facie* evidence of receipt of those items.

The person receiving the item(s) in the USPTO will check the listing on the postcard against the item(s) being filed to be sure they are properly identified and that all the items listed on the postcard are presently being submitted to the USPTO. If any of the items listed on the postcard are not being submitted to the USPTO, those items will be crossed off and the post-card initialed by the person receiving the items. Upon return of a postcard receipt from the USPTO, the postcard receipt should be promptly reviewed by the person who filed the items to ensure that every item specifically denoted on the postcard was received by the USPTO. If the postcard receipt has been annotated to indicate that a particular item denoted on the postcard was not received by the USPTO, the postcard receipt will not serve as *prima facie* evidence of receipt of that item in the USPTO. (Emphasis supplied.)

² 35 U.S.C. §133 provides:
35 U.S.C. §133 Time for prosecuting application.

Upon failure of the applicant to prosecute the application within six months after any action therein, of which notice has been given or mailed to the applicant, or within such shorter time, not less than thirty days, as fixed by the Commissioner in such action, the application shall be regarded as abandoned by the parties thereto, unless it be shown to the satisfaction of the Commissioner that such delay was unavoidable.

a previously unavoidably or unintentionally, respectively, abandoned application under this congressional grant of authority. The language of 35 U.S.C. §133 and 37 C.F.R. §1.137(a) is clear, unambiguous, and without qualification: the delay in tendering the reply to the outstanding Office action, as well as filing the first petition seeking revival, must have been unavoidable for the reply now to be accepted on petition.³

Delays in responding properly raise the question whether delays are unavoidable.⁴ Where there is a question whether the delay was unavoidable, Petitioners must meet the burden of establishing that the delay was unavoidable within the meaning of 35 U.S.C. §133 and 37 C.F.R. §1.137(a).⁵ And the Petitioner must be diligent in attending to the matter.⁶ Failure to do so does not constitute the care required under Pratt, and so cannot satisfy the test for diligence and due care.

(By contrast, unintentional delays are those that do not satisfy the very strict statutory and regulatory requirements of unavoidable delay, and also, by definition, are not intentional.⁷)

Allegations as to the Request to Withdraw the Holding of Abandonment

The courts have determined the construct for properly supporting a petition seeking withdrawal of a holding of abandonment.⁸

Petitioner appears as of this writing to have satisfied the showing requirements described above.

CONCLUSION

Because it appears that Petitioner has satisfied the burdens set forth in Delgar v. Schulyer, the

³ Therefore, by example, an unavoidable delay in the payment of the Filing Fee might occur if a reply is shipped by the US Postal Service, but due to catastrophic accident, the delivery is not made.

⁴ See: Changes to Patent Practice and Procedure; Final Rule Notice, 62 Fed. Reg. at 53158-59 (October 10, 1997), 1203 Off. Gaz. Pat. Office at 86-87 (October 21, 1997).

⁵ See: In re Application of G, 11 USPQ2d 1378, 1380 (Comm'r Pats. 1989).

⁶ See: Diligence in Filing Petitions to Revive and Petitions to Withdraw the Holding of Abandonment, 1124 Off. Gaz. Pat. Office 33 (March 19, 1991). It was and is Petitioner's burden to exercise diligence in seeking either to have the holding of abandonment withdrawn or the application revived. See 1124 Off. Gaz. Pat. Office supra.

⁷ Therefore, by example, an unintentional delay in the reply might occur if the reply and transmittal form are to be prepared for shipment by the US Postal Service, but other pressing matters distract one's attention and the mail is not timely deposited for shipment.

⁸ See: Delgar v. Schulyer, 172 USPQ 513 (D.D.C. 1971).

petition as considered under 37 C.F.R. §1.181 hereby is **granted**, the 19 December, 2005,
Notice of Abandonment is **vacated**.

The instant application is released to Technology Center 1700 for further processing in due course.
